

# REVOLUTIONARY PROPERTY PROTECTION SOLUTION

Reduce the cost of  
traditional  
security by **80%**

The nearly 1-ton Mobile Surveillance Unit from MSU SYSTEM is equipped with an advanced video alarm system.

Utilizing cutting-edge image verification analytics based on artificial intelligence algorithms. We protect your property 24/7. In all conditions and any location nationwide.

A dedicated application allows our clients to check in real-time the appearance of the protected area and provides access to past events.

Uninterrupted 24/7 monitoring – The MSU Operations Center patrols the area using 360-degree cameras mounted on a 7-meter telescopic mast.

## We Protect, Monitor, and Intervene **24/7**

Are you building, renovating, or just starting your investment? Choose comprehensive protection for any location, tailored to your project.
